

ShieldAI vCISO

Privacy Policy

Operated by Xandu Limited, LLC

Effective date: to be set on publication

This document is provided for transparency and does not constitute legal advice. The final published version should be reviewed by a licensed attorney before it is relied upon.

This Privacy Policy explains how Xandu Limited, LLC ("ShieldAI vCISO," "we," "us") collects, uses, and protects information when you use the ShieldAI vCISO platform and website (the "Service"). We take privacy seriously — it is core to what we do.

1. Information We Collect

- **Account information** — name, email, company name, and credentials you provide when registering.
- **Assessment and program data** — the security information you enter about your business, and the programs, policies, and reports generated for you.
- **Endpoint and monitoring data** — where you deploy our monitoring agents, technical posture data from those endpoints. Agents operate read-only and do not take actions on your systems.
- **Usage and device data** — standard log information such as IP address, browser type, and interactions with the Service, used to operate and secure the platform.

2. How We Use Information

We use your information to provide and improve the Service: to run assessments, generate your security program, deliver managed services through our engineers, communicate with you, secure the platform, and meet legal obligations. We do not sell your personal information.

3. AI Processing

ShieldAI vCISO uses third-party AI providers (including Anthropic, Google, and OpenAI) to analyze assessment data and generate documents. Data sent to these providers is used to produce your outputs. We select providers with enterprise data-handling commitments and send only what is necessary to perform the requested task.

4. How We Share Information

We share information only with service providers who help us operate the platform (such as hosting and AI providers) under appropriate confidentiality obligations, when required by law, or to protect the rights and safety of our users and the public. We do not sell or rent your data.

5. Data Security

We apply administrative, technical, and physical safeguards appropriate to the sensitivity of the data, including encryption in transit, access controls, and the principle of least privilege. As a security company, protecting your data is central to our credibility and our operations.

6. Data Retention

We retain your information for as long as your account is active or as needed to provide the Service and meet legal obligations. You may request deletion of your account data, subject to records we are required to keep.

7. Your Rights

Depending on your location, you may have rights to access, correct, export, or delete your personal information. To exercise these rights, contact us using the details below.

8. Changes to This Policy

We may update this Privacy Policy from time to time. Material changes will be reflected by an updated effective date, and where appropriate we will notify you.

9. Contact

Questions about this policy or your data can be directed to Xandu Limited, LLC at the contact address published on our website.
