

ShieldAI vCISO

Terms of Service

Operated by Xandu Limited, LLC

Effective date: to be set on publication

This document is provided for transparency and does not constitute legal advice. The final published version should be reviewed by a licensed attorney before it is relied upon.

These Terms of Service ("Terms") govern your access to and use of the ShieldAI vCISO platform and website (the "Service"), operated by Xandu Limited, LLC ("ShieldAI vCISO," "we," "us"). By creating an account or using the Service, you agree to these Terms.

1. The Service

ShieldAI vCISO provides virtual CISO tools and services, including security assessments, a deterministic posture score, generated policies and programs, compliance mapping, training, threat intelligence, and — on applicable plans — managed services delivered by our security engineers.

2. Advisory Nature of the Service

ShieldAI vCISO provides guidance, analysis, and recommendations to help you improve your security posture. It is a decision-support and program-management tool — not a guarantee against security incidents. You remain responsible for decisions about, and the operation of, your own systems. Our AI features are advisory and operate under human review on managed plans; our monitoring agents are read-only and do not take autonomous action on your systems.

3. Accounts

You are responsible for maintaining the confidentiality of your account credentials and for all activity under your account. You agree to provide accurate information and to notify us of any unauthorized use.

4. Acceptable Use

- Do not use the Service to violate any law or the rights of others.
- Do not attempt to disrupt, reverse-engineer, or gain unauthorized access to the Service or its infrastructure.
- Do not use the Service to test or attack systems you do not own or are not authorized to assess.

5. Plans, Billing, and Cancellation

Paid plans are billed according to the pricing presented at signup. You may cancel in accordance with the terms of your plan. Fees already incurred are non-refundable except where required by law or expressly stated.

6. Intellectual Property

The Service, including its scoring methodology, software, and content, is owned by Xandu Limited, LLC. The security program, policies, and documents generated for your business are provided for your use. You retain ownership of the business information you provide.

7. Disclaimers

The Service is provided "as is" and "as available." To the maximum extent permitted by law, we disclaim implied warranties. We do not warrant that the Service will be uninterrupted or error-free, or that it will prevent all security incidents.

8. Limitation of Liability

To the maximum extent permitted by law, ShieldAI vCISO and Xandu Limited, LLC will not be liable for indirect, incidental, or consequential damages, and our total liability for any claim relating to the Service is limited as set out in your plan agreement.

9. Changes to the Service and Terms

We may modify the Service or these Terms. Material changes to these Terms will be reflected by an updated effective date, and continued use of the Service after changes take effect constitutes acceptance.

10. Contact

Questions about these Terms can be directed to Xandu Limited, LLC at the contact address published on our website.
